1. Claims 1-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A. The instant claims recite "the amino group" but there is not antecedent basis for "the amino group". It is therefore unclear if amino groups are required or not.

2. Claims 1-21 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Kato et al. and Faust et al. are representative of the closest prior art. Neither suggests the instantly claimed combinations of ingredients and amounts thereof nor that modifying the prior art according to the instant claims would give the results disclosed by the applicant.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick D. Niland whose telephone number is 571-272-1121. The examiner can normally be reached on Monday to Thursday from 10 to 5.
